# MAG505S

Wall-Mounted Control Panel

Description

MAG505S wall-mounted touch control panel, which is simple to use and covered with white or black color glass. The wall controller allows volume adjustment, music selection, audio mute and local audio pushing to the public address system. Local audio input can be connected directly to the wall controller by using additional connector. The matrix mixer can support 5 wall-mounted control panels, with one unit for one zone.
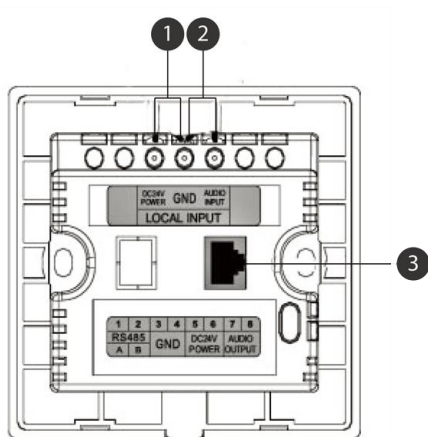

Features

- Wall-mounted Touch Control Panel.
- Covered with white or black color glass.
- Adjust volume, select music, mute audio and push local audio to the public address system.
- One matrix mixer can support 5 units of wall controllers.
